

2020 AUG. BAC CRUISE TO GONZALES

In a cruiser caravan that was heavily weighted towards Corvettes, about 20 cruisers made their way to Gonzalez, the town that made the comment, "Come and Take It" famous during the Texas War of Independence, on Saturday, August 15.

We took route 304 for part of the trip then took a turn to the right on US 90, followed by a left turn that took us on a fairly scenic route into historical Gonzalez. The cruise was enjoyable, and as expected, very hot. The air conditioner compressor on a vintage corvette on the cruise gave up its ghost half way to our destination. I believe that was the only casualty of the trip. We parked and met up in the town square where Bo had organized a little raffle for some car related prizes for the attendees. The crowd then dispersed around the town to find a lunch spot and do a little bit of shopping. There were enough places open to make a few stops. Most of the crowd ended up for lunch at the Italian restaurant just off the Square, La Bella Travola. They had some nice selections.

The drive home was at your leisure as people finished their shopping and dining on their own schedules. Thanks go to Harry and Cheryl Green for organizing another fun outing and to Bo Godfrey and Greg Antonichuk for a fun raffle.

The link below should work to allow you to see the picture album in Google Photos. If you have photos on your phone from this event, please add them to this album on our google photos account, if you know how to access the account, or you can forward them in email to Greg Antonichuk at greg.antonichuk@signatureflight.com to be added to the album. If you can open the album and want to add your pictures, you may be able to easily add photos by clicking the icon on the top that has a + sign and two little mountain peaks in it. This takes you right to adding photos. Of course, this may not look the same on different computers or phones, so don't be surprised if this shorecut is not available to everyone.

Jeff
