

May 2019 BAC Meeting

In spite of a number of vacationing members, the May meeting at the Hampton was another well-attended gathering, featuring Bo Godfrey as the meeting coordinator. Bo did a fine job of juggling the sometimes finicky audio visual equipment, sometimes aided by the trusty tech support of John Huish, Tom Jackson, and others. Bo treated us to some interesting videos, a raffle with some nice prizes, and all the usual and needed reminders of upcoming events and happenings. We also got a report from the scholarship committee and the car show people. Gracie's did a nice job with the dinner.

The Corvette Invasion guys gave us another dose of encouragement to sign up for their event coming up later this year. You can google for this or find details on our website.

The raffle results were maybe a first ever occurrence for the club. The same member, Greg Antonichuk, won both prizes. What a haul. Check out his smiling face as well as a few other pics from the meeting on the google pic link below. Meeting slide presentation is also attached. And additional detail on the meeting as also attached in the minutes provided by Greg Blume.

See everyone at the June meeting coming up on June 12th.
