

Subject: Bastrop Area Cruisers SHOUT OUT : Mother's Day at the Track, Sunday May 10th

Last Sunday was certainly not grandma's traditional Mother's Day. The Circuit of the Americas race track opened its doors to all drivers last Sunday for the opportunity for anyone to drive the COTA track in a parade lap as a fundraiser event to benefit the Central Texas Food Bank, which as the name states is our largest regional charity food collection and distribution organization. They provide resources for Austin as well as for many smaller area food centers including the Bastrop Emergency Food Pantry.

About 30 club members and family members met at the 71/21 intersection and caravanned to COTA and upon arrival cruised serpentine style through the parking areas and the paddock area and proceeded to follow the long parade lap line of cars onto the track up the steep turn one and further around the track. It was very slow going at times with the hundreds of cars that turned out to participate, but it was still an interesting and fun outing during these days of very few outings. During the slow going there were plenty of opportunities for members to get pictures of other car club people and cars and several members contributed their pictures to the Google photo album that is available for review using the link below. So check it out, and if you were there, someone may have caught a good picture of you and your car on the track.
